FLOOR DEBATE

April 11, 2003      LB 305

have a cabin in my district, hey, you know what, if you want to register your boat in Keith County, we want to try and accommodate you. It tells those individuals who are out there riding around on the water and following someone too close, hey, you can't do that. That's reasonable. Closes a loophole, again. Again, maybe we can get Senator Hilgert to call Senator Bourne between this debate and convince him of what's in this proposal. And, finally, the most important part, as I see it today, is the idea and the law, the language that says that law enforcement should cooperate in the event of an accident. There are a lot of things that I have learned over the past year that could have been resolved by some personal responsibility and some common sense. In addition to that, we've resolved some of those. Now we've got to fix the foundation that the house was built upon, and that is the law. So if you're opposed to it, you're opposed to it. I'm not convincing Senator Bourne. I might not be convincing some of you. I appreciate the 29 of you that voted to bring the bill back. I think that was a wise move, in my opinion. I have all kinds of information. If you'd like to ask questions, I'm here to answer them. It's all I can offer you. It's part of our process. The process is, Senator Friend, as you've seen it, new senator, if you have a question you get up and ask it. Your constituent has a concern, you get up and ask about it. You come talk to us personally. It's how our process works. Senator Beutler, I appreciate your comments as well that this is no different than if this proposal would have had three different stages of debate. Thank you, Mr. President.

SENATOR CUDABACK: Thank you, Senator Erdman. Senator Bromm, followed by Senators Jensen and Tyson. Senator Bromm.

SPEAKER BROMM: Thank you, Mr. President. Senator Erdman has offered us a way to do this and I would suggest there are a couple of other ways we could do it as well. With Senator Schrock's permission, or without, but I would hate to do it without, we could take the bill off the agenda and give it time to be sorted out. Another item, I think Senator Wehrbein has his amendment filed up there with a motion, is that right, Senator Wehrbein, separately, if this doesn't go. And Senator Hudkins I think related to me that she had her amendment filed
